

Dr. Dhananjay Dey did his M. Sc. (Maths) in 1998 from Jadavpur University, Kolkata and Ph.D. (Thesis Title: **Multivariable Polynomials and its Applications to Cryptology**) from the same University in 2011.

More than 16 years experience in the area of **Design & Analysis of Block Ciphers, Design & Analysis of Cryptographic Hash Functions, Multivariate Public Key Cryptography, Post Quantum Cryptography and Algebraic Cryptanalysis.**

Author of 11 papers published in International Journals/Conferences & National Conferences.

Executive Committee member of Cryptology Research Society of India (CRSI) from January 2015 ó December 2016.

Reviewed 6th & 11th Chapter of the book **öCryptography and Network Security ó Principles and Practiceö** Sixth and Seventh Edition written by William Stallings.

Editor of the Course Material of **Cryptography** for M.Sc. course in Mathematics with Applications in Computer Science (MACS) of IGNOU.

Program Committee Member of Mathematical Sciences for Advancement of Science and Technology (MSAST), International Conference on Mathematics and Computing (ICMC), National Workshop on Cryptology (NWC) and International Symposium on Security in Computing and Communications (SSCC).

Review Committee Member of Journal of System and Software, Inscrypt, Indocrypt, International Conference on Security, Privacy and Applied Cryptography Engineering (SPACE), International Conference on Signal Processing and Communication (SPCOM) and International Conference on Soft Computing for Problem Solving (SoCProS)

Life member of Cryptology Research Society of India (**CRSI**), Calcutta Mathematical Society (**CMS**), Ramanujan Mathematical Society (**RMS**) and Indian Society of Information Theory and Applications (**ISITA**)
